Auditors' Report.

We, the Auditors of the town of South Hampton, certify that we have this day examined the accounts of the Selectmen, Treasurer and Collector of Taxes of the town of South Hampton and find them correctly cast and properly vouched.

SAMUEL M. PESCOTT, }
OTIS W. TOWLE, } Auditors.

South Hampton, N. H., Feb. 15, 1903.

School Report.

As our schools are in session at the close of the fiscal year, February 15, a complete report cannot be given. The school year, in our town system, will be upwards of thirty-five weeks. The school year, in the state system, begins with the fall term and the official report is made with that arrangement in regard to time.

We cannot give the usual information in regard to average attendance and perfect attendance, the schools not being closed.

During the year about fifteen different scholars have attended at the Upper Village school, twenty-three at the Centre school and thirteen at the Peak school.

These figures are a little misleading as to the school children of our town, for a part of the scholars are from adjoining towns and several of our scholars are temporarily absent and attending schools in other places.

No change from our usual system has been made in the management of our schools.

Arrangements were being made and agreed upon last spring, by the advice of State Superintendent Folsom, to close one of our schools, but the plan was not carried out as it was evident at the school meeting that about all the parents were much opposed to transporting the scholars. The success of our schools has been much impaired and best results have not been obtained by reason of the want of harmony to settle the differences of this much vexed question. It was expected to have Miss Rowell of Newton, who was so well liked as a teacher, to begin the spring term, but so much time was lost in the *honest* efforts to adjust the much vexed school question, that she was employed in her own town to teach.

We must take notice that a large percentage of our larger scholars are attending school out of town at a large expense to the town and parents.

This fact requires that we will consider the best methods to expend the money that is raised for the children by taxation and that given, in trust, to them, by bequest.

Last March we wrote to the Probate Court as to who had the custody of the Barnard legacy, the register replied: "I do not find that any Trustees ever qualified," and as the executors, who had the estate in their hands, and applied it as by the terms of the will, are dead, some action of the parents or town in behalf of the children is required for the safety of the said legacy and that the income be applied according to the will of Mr. Barnard.

It will be noticed that the expenses for school supplies are large, this is on account of the high price of fuel and that so much more is being required than usual, also by the purchase of new books.

New geographies were required on account of the many changes in all the states, as shown by the last census, also by the extending of our domain into the West Indies and in the Pacific, even to the old world; this required a new book that is up to date.

Orders were drawn on the Treasurer for the payment of the following claims against the district:
